

**CODS 2009:**  
**The 3rd International Conference on Complex Distributed Systems**  
Leipzig, Germany, 25 March 2009

## List of Accepted Papers

The following papers are accepted for inclusion in the electronic conference proceedings and presentation at the conference, and publication in the CoSIWN journal after the conference.

#	Authors	Title
9	Mohammed Alawairdhi and Hongji Yang.	A Reengineering Approach for Software Systems Complying with the Utilisation of Pervasive Computing Technologies
3	Blesson Varghese and Gerard McKee.	Investigating a Mathematical Tool for Swarm Pattern Transformation
7	Miguel García Rodríguez, Jose María Alvarez, Diego Berrueta and Luis Polo.	Declarative Data Grounding Using a Mapping Language
1	Shagufta Hina.	A Throughput Analysis of TCP Variants under Different Random Packet Loss Rate
5	JunQing Chen and Linpeng HUANG.	Types and effects for service composition based behaviors
12	fakher ben ftima, kamel karoui and Henda ben ghezala.	Security policies checking in distributed firewalls using the mobile agent approach

The following papers are accepted only for inclusion in the electronic conference proceedings and presentation at the conference, but will not be published in the CoSIWN journal after the conference.

#	Authors	Title
4	Saugata Bose and Md. Moniruzzaman.	Overview of Wireless Sensor Networks: Detection of Cloned Node Using RM, LSN, SET, Bloom Filter and AICN Protocol and Comparing Their Performances
10	Khaled Barbaria.	A Consensus Service for Complex Dependable Applications
6	Mohamed Guerroumi, Nadjib Badache and Samira Moussaoui.	Clustering Pair and Odd to optimize the energy consumption in wireless sensor networks
